

Far North Queensland GIS Group Inc.
www.fungis.org

We are a non profit association established as a local forum for knowledge exchange on GIS, and to promote the use and awareness of spatial information technology across the far north and beyond.

WHAT IS GIS?

Geographic Information Systems

Linking PEOPLE, Technology, Data and Knowledge

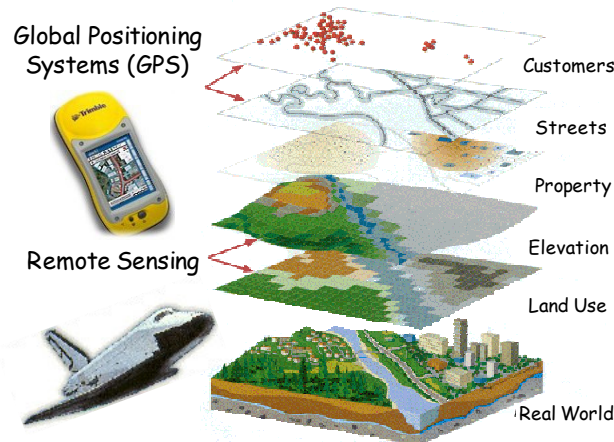

GIS is far more than just mapping software. It links information about where things are with information about what things are like. The software contains tools that allow you to perform sophisticated analysis of these relationships, giving better informed decisions.

WHO BENEFITS FROM SPATIAL SCIENCES & TECHNOLOGY?

- TOURISM & AGRICULTURE
- BIODIVERSITY & RESEARCH
- SMALL BUSINESS & HEAVY INDUSTRY
- RESOURCE MANAGEMENT & EDUCATION
- EMERGENCY SERVICES & BIOSECURITY
- TRANSPORT & COMMUNICATIONS
- INFRASTRUCTURE & DEFENCE

In fact anyone who wants to know where something or somewhere is and how it relates to everything else!

HOW DOES FUNGIS SUPPORT THE WIDER COMMUNITY?

- KNOWLEDGE SHARING
- PROMOTE AWARENESS OF GIS
- CROSS-INDUSTRY COLLABORATION
- CO-ORDINATE & PROVIDE TRAINING
- REGIONAL REPRESENTATION FOR POLICY, DECISION MAKING & FUNDING

Fungis MEMBER BENEFITS
