

# MapChat with Tangaroa Blue

## Tackling Marine Debris with Data

Wednesday 9th March  
5:30pm for a 6pm start  
Bluewater Tavern, Trinity Park

FunGIS members: \$5  
Non-members: \$10  
Register @ [www.fungis.org](http://www.fungis.org)

At this MapChat we will hear from Tangaroa Blue Project Officer Mathilde Gordon, who will speak about the importance of data collection in monitoring the quantity and source of marine debris across the Great Barrier Reef.

Late last year, the 20 millionth item was entered into the Australian Marine Debris Initiative Database from clean-ups and monitoring events around the country. Join us to hear both how this data is collected and how it is used to create change.
